## Self-Assessment of swim attire.....it is not allowed if:

- Your swim trunks have no netting/lining
- You wear underwear with your swim trunks
- Your spandex can be used for land sports
- It is bought in the underwear department

## You will be asked to change or leave if:

- You are in unacceptable swimwear (street clothes)
- You have been wearing your swimwear for land exercising immediately prior to pool use
- You are wearing anything cotton
- You are not appropriately covered

## Why do I have to wear proper swimwear?

1. Street clothes (especially cotton) can transport airborne and ultimately water borne contaminants into the pool.
2. Lycra and Nylon are the best non-absorbent material for swimming and are the best fabrics for proper swim attire.
  - a. Other absorbent materials (such as cotton) can break down in the water and cause fibers to clog filters.
  - b. Any "colored" material (unless specifically made for swimming) can bleed into the pool, effecting water chemistry and balance. This is also a reason for turbidity in pools.
  - c. Cotton and similar materials can absorb the chemicals in the water, causing the water to become less effective at maintaining the proper chemical balance or may cloud the water.
