

Raymond Berry Intermountain Pool Swim Attire Requirements

All patrons are required to wear proper swim attire. All swimwear bottoms must have a liner. All swimwear must be clean. All patrons must be appropriately covered at all times.

All infants/toddlers that require diapers must wear swimmers diapers and proper swimwear at all times.

Things that are allowed at the pool include:

- Any article of clothing that was designed for swim use that is chlorine proof and colorfast
- One-Piece Bathing Suit
- Two-Piece Bathing Suit
- Swim Shorts
- Swim Skirts
- Swimming Trunks
- Swim Shirt
- Full Swim Suit
- Wet Suit
- Water Shoes

Things that are not allowed in the pool area including but not limited to:

- Underwear
- Sports Bras
- Cotton Clothing
- Jeans
- Gym Shorts, Cut offs
- Jacket
- T-Shirts
- Land Shoes
- See-through bathing suits when wet
- Clothing with buttons or zippers
- Any type of street clothes

Self-Assessment of swim attire.....it is not allowed if:

- You would wear your attire to the gym, during land sports or running
- Your swim trunks have no netting/lining
- You wear underwear with your swim trunks
- Your spandex can be used for land sports
- It is bought in the underwear department

You will be asked to change or leave if:

- You are in unacceptable swimwear (street clothes)
- You have been wearing your swimwear for land exercising immediately prior to pool use
- You are wearing anything cotton
- You are not appropriately covered

Why do I have to wear proper swimwear?

1. Street clothes (especially cotton) can transport airborne and ultimately water borne contaminants into the pool.
2. Lycra and Nylon are the best non-absorbent material for swimming and are the best fabrics for proper swim attire.
 - a. Other absorbent materials (such as cotton) can break down in the water and cause fibers to clog filters.
 - b. Any "colored" material (unless specifically made for swimming) can bleed into the pool, effecting water chemistry and balance. This is also a reason for turbidity in pools.
 - c. Cotton and similar materials can absorb the chemicals in the water, causing the water to become less effective at maintaining the proper chemical balance or may cloud the water.
